

## **Ex.No.10: Enable/Disable submit button and Blink Text using Jquery**

### **Aim**

To write a jquery code to blink text and enable/disable submit button when checkbox is checked on a web page.

### **Source Code**

```
<html>
```

```
  <head>
```

```
    <script src="https://code.jquery.com/jquery-1.10.2.js"></script>
```

```
    <title>Disable/enable the form submit button</title>
```

```
  </head>
```

```
  <body bgcolor="yellow">
```

```
    <script>
```

```
      $(document).ready(function () {
```

```
        setInterval(blinkText,1000);
```

```
        function blinkText()
```

```
        {
```

```
          $('.blink').fadeOut(500);
```

```
          $('.blink').fadeIn(500);
```

```
        }
```

```
        $('#accept').click(function()
```

```
        {
```

```
          $('#submitbtn').prop("disabled",!$('#accept').prop("checked"));
```

```
        })
```

```
      );
```

```
    </script>
```

```
<font size="16">  
<div> In this exercise jquery is used to create <span class="blink">Blinking  
Text</span> and Enable/Disable Submit Button. </div><br>  
<form>  
  <input id="accept" name="accept" type="checkbox" value="y"/>I accept<br>  
  <input id="submitbtn" name="Submit" type="submit" value="Submit" disabled />  
</form>  
</font>  
</body>  
</html>
```

## **Output**

In this exercise jquery is used to create Blinking Text and  
Enable/Disable Submit Button.

I accept

In this exercise jquery is used to create Blinking Text and Enable/Disable Submit Button.

I accept

### **Result**

Thus the jquery code to blink text and enable/disable submit button when checkbox is checked on a web page was written and executed successfully
